Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Tuesday 11 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Some heavy showers after a dry start.

Today:
A fine and dry start before the cloud soon builds to bring a few showers by late morning. These showers then becoming widespread by the afternoon, heavy at times with the possibility of thunder too. Maximum temperature 16 deg C (61 deg F).

Tonight:
Earlier showers continuing and still falling heavy at times. It will be breezy earlier in the night near the coast with the driest and calmest conditions east of the region. Minimum temperature 6 deg C (43 deg F).

Wednesday:
Another day of sunshine and showers, with these showers turning heavy and potentially thundery at times. Becoming largely clear and dry during the evening. Maximum temperature 15 deg C (59 deg F).

Outlook for Thursday to Saturday:
Some early rain for southernmost areas Thursday, soon clearing to leave more widespread scattered, possibly thundery, showers. After a clear start on Friday, scattered showers persisting into Saturday. Easing winds.
